

Why should you enable an Alexa Skill to hear our radio stations?

Amazon smart speakers, powered by **Alexa** are great by themselves, but this convenient, hands-free, personal-assistant, and smart speaker gets even better once you begin loading **SKILLS**.

We want you to enjoy Black Diamond radio stations on your new **Amazon Echo Dot**. But how do you enable the proper **Alexa** skills, and what's the best way to do it? We explain the easiest method of using **Voice Commands** below and list URL links for two additional methods.

Since you just won or received our complimentary [Amazon Echo Dot](#), (and by-the-way, thanks for being a loyal radio listener). You'll want to equip your speaker with the smartest registered skills, to get the very best, and **purest** sounding music.

Did you know ALL music providers or streamers are NOT created equal? There are many sub-par entities out there trying to provide your stream. Make sure to get your music straight from us!

You'll benefit, by connecting directly to our **Black Diamond Broadcast** signals, but only when you enable our registered **Alexa SKILLS** as listed below.

We're real terrestrial radio, supporting your community, and the artists that create the music. We employ local-residents, maintain local offices, and use area business services. We appreciate our local advertisers, while providing you with many genres of topnotch, free music that you love! We're also proud to be, Michigan raised, owners and residents.

Alexa Skills can be enabled (setup) three ways:

Voice Command - **Amazon Website** - **Amazon Alexa App**

easy ----- moderate ----- challenging

First time users will be required to:

- Download the **Amazon App** to your smart phone and establish a personal account.
(Or use your existing Amazon Account)
- Plug in power to your Amazon Echo Dot and connect it to your home network.
 - (Have your WIFI password ready)
 - After Alexa greets you, complete setup in the Alexa app.
